

Application · Senior Customer Success Manager Enterprise · France

Gabriel VIDEIRA · Customer Success × Web Analytics & A/B Testing

Make every client interaction relevant.

Your clients run experiments to grow. I have been on **both sides of that table**: 11 years running A/B tests and analytics for clients, then Customer Success Manager of a **€3M Enterprise account of digital projects across 25 countries**, where I kept a **web analytics consultant** role.

No blind spots. No guesswork. Only renewals and growth.
