ABOUT

**Two areas of expertise, built over 20 years.**

**Key account management**: I run and grow strategic accounts, most recently a European account worth more than €3M a year for MAZDA Motor Europe, and before that a client portfolio I built from scratch as an agency founder.

**Digital growth**: I am a hands-on expert in SEO, GEO, SEA and data, from technical audits to AI search visibility and analytics.

I have founded three companies, ran a data-driven agency for 11 years with full P&L, then managed a European account worth more than €3M a year. I have led teams of up to 15 people, including 10 SEO consultants, and I have been teaching digital marketing for more than 10 years: explaining complex topics simply is a skill I use every day with my clients.

WHAT I BRING

- Trusted relationships with decision-makers, backed by real technical expertise
- Strategy and execution: I design the plan and I deliver it
- An entrepreneur's mindset: 3 companies founded, full P&L
- International reach: 25 markets managed; native French and Portuguese, C1 English and Spanish

TARGET ROLES

## Digital Account & Projects Director - Customer Success Manager Senior

Feb 2024 → present

Collide · an SGS&Co (Propelis) agency · Paris · two roles in one: key account relationship and digital expertise

**ACCOUNT DIRECTOR · MAZDA MOTOR EUROPE**

- → Strategic account worth **more than €3M a year**, managed in English with European directors and VPs
- → Creation and roll-out of digital assets across **25 markets and 32 languages**: brochures, price lists, product content, localisation
- → Coordination of the whole ecosystem: European headquarters, national sales companies, group teams, offshore production
- → **QBRs**: activity, quality, lead times, roadmap; **+30%** through new projects and services
- → Management of a **15-person** offshore production team (Mauritius)

**DIGITAL EXPERT · SEO, GEO & PROJECTS**

- → **SEO & GEO** consulting for the agency's digital accounts: audits, recommendations, roadmaps
- → **GEO**: getting brands cited in ChatGPT, Perplexity and Google AI Overviews
- → Web analytics: **Looker Studio** dashboards fed by Google Analytics, tracking aligned with Mazda Europe
- → End-to-end deployment: hosting, cookie consent, multilingual roll-out
- → AI-powered automation of production workflows

My conviction: a key account grows when client relationship and digital expertise move forward together.

## Founder & Director · Key Account Director - Acquisition / SEO / SEA / DATA Expert

2012 → 2023 · 11 years

Bee4 · data-driven digital marketing agency · traffic, leads, online sales, conversion, web analytics
